

RS2-2	REAR QUARTER PANEL
Inspection Criteria	
The lower section of the rear quarter panel should be supplied individually.	
Reason	
When the lower section of the rear quarter panel is supplied individually, it is not necessary to perform sectioning using a rear quarter assembly or remove individual parts from a rear quarter panel assembly, which reduces the parts cost.	
<div><div><div>Good Example</div><div>The lower section of the rear quarter panel is supplied individually.</div><div></div></div><div><div>Poor Example</div><div>The rear quarter panel is supplied only as an assembly.</div><div></div></div></div>
