

## Inspection Criteria

The rear muffler should be supplied individually  
When the muffler finisher is used, it should be separable and supplied individually.

## Reason

When the rear muffler is supplied individually, if the rear end of the rear muffler is damaged, only the damaged section needs to be replaced, which reduces the repair cost.  
When the rear muffler finisher is supplied individually, if the muffler finisher is damaged, only the muffler finisher needs to be replaced, which reduces the repair cost.

Good Example

Middle pipe, rear muffler, and muffler finisher are supplied individually.

Poor Example

Middle pipe, rear muffler, and muffler finisher are supplied as an assembly.
